**Stay Informed on the Fort Weaver Road Widening Project
by Joining Senator Will Espero**

EWA BEACH – The long awaited transportation project intended to help accommodate for the rapidly growing community in West Oahu is underway. The Fort Weaver road project phase II is scheduled for construction this summer, expanding four lanes to six in the area reaching A'awa Drive to Geiger Road.

“It’s about time that the state started phase 2 of the Ft. Weaver widening. Commuters are frustrated and angry at the slow pace of this project.” said Senator Espero. A long time advocate for the project and lobbyist for other transportation initiatives, Senator Espero's primary concern remains in the effort to relieve the daily crawl out of Ewa.

Come and join Senator Espero to share your comments and suggestions about the project to representatives from the Department of Transportation, contractor Hawaiian Dredging Construction Company, and Parsons Brinkerhoff on **Thursday, May 31, 2007** in the **Ewa Elementary School Cafeteria** (91-1288 Renton Road) at **6:00 pm – 7:30 pm**. Let them know what traffic congestion alleviation means to you and how a timely completion of this project is needed to build the necessary infrastructure for our community.
